There were issues affecting this run of Lighthouse:

- Chrome extensions negatively affected this page's load performance. Try auditing the page in incognito mode or from a Chrome profile without extensions.

- There may be stored data affecting loading performance in this location: IndexedDB. Audit this page in an incognito window to prevent those resources from affecting your scores.

- The page loaded too slowly to finish within the time limit. Results may be incomplete.

- The page may not be loading as expected because your test URL (https://mail.google.com/mail/u/0/#inbox?compose=new) was redirected to https://mail.google.com/mail/mu/mp/149/. Try testing the second URL directly.
